THE PILLOWS**

**LOCK UP  
THE MEDS**

You may want your client to find a home that's a steal, but you don't want someone stealing from their home while it's on the market. For those struggling with opioid addiction, a few pills from a few open houses could be a big get. Don't leave your clients' medications out for the taking — house them in a lock bag or box before opening the doors.
